CAPABILITY STATEMENT

NEW LIFE MANAGEMENT CONSULTING

New Life Realty Group, LLC d/b/a New Life Management Consulting

We provide property and REO services, business management and consulting, and education and coaching. Our digital communications, publications, and event services support these offerings and are also available for individual assignments.

Property and REO services

Real estate and asset support

Residential and investment real estate services; real estate owned (REO) asset support; broker price opinions; occupancy checks; property marketing; and property management.

Preservation and construction

Property preservation, winterization, cleanouts, cleaning, repairs, residential rehabilitation, construction services, and facilities support. We deliver assigned work through project coordination and oversight of crews, including services requested through REO property assignments.

Business management and consulting

Strategy and business development

Strategic planning, business development, administrative support, and operational improvement to help organizations establish priorities and organize their work.

Project and program management

Project management, program coordination, scheduling, documentation, and communication. We coordinate activities and personnel to support the delivery of property projects, business assignments, and educational events.

Leadership experience

- Managed more than 30 properties, including residential construction management responsibilities.
- Trained and coached more than 50 people.
- Recruited, trained, and mentored 15 real estate agents.

NEW LIFE MANAGEMENT CONSULTING

New Life Realty Group, LLC d/b/a New Life Management Consulting

Education and Program Support

We provide educational programs, coaching, and speaking engagements for adults, families, workplace audiences, and community organizations. Tesha Perry, MSW, presents our speaking engagements. Related communications and event services support program delivery.

Education and coaching

Financial capability and homeownership

Credit education and consulting, financial literacy, and homeownership readiness. Guidance on credit building and identifying housing resources to support greater stability.

Life skills and personal development

Coaching and education on goal setting, practical decision making, communication, and life skills for adults and families.

Stress management and coping skills

Programs addressing everyday stress and coping in work environments and family life, with practical tools for communication, routines, and managing competing demands.

Mental health awareness

Public speaking and educational programs that build awareness, encourage supportive conversations, and connect participants with appropriate resources.

Education and coaching are nonclinical services. These offerings do not include clinical assessment, diagnosis, psychotherapy, or mental health treatment.

Program formats

Seminars, webinars, workshops, speaking engagements, and live educational events.

Program and business support

Digital communications and learning

Website and social media support, e-learning, curriculum development, and training on business systems and applications. Technical project scopes are matched to staffing and project needs.

Publications and graphics

Reports, newsletters, brochures, program and meeting materials, graphic design, technical writing, and editing.

Events and project coordination

Planning and coordination for seminars, webinars, educational events, and open houses. Services include site selection, registration, exhibitor and speaker coordination, and event materials.
